Business Strengths

Japan's foremost comprehensive aluminum manufacturer

Producing and selling more aluminum than any other company in Japan, Furukawa-Sky is the country's foremost comprehensive aluminum manufacturer. Principal business activities are the production and sale of sheets, extrusions, castings, forgings, and fabricated products.

World-class quality and cost competitiveness

- 1. Fukui Plant** Production of large products, such as beverage can stock and foil stock, using one of the world's largest rolling mills
The No.1 market share in Japan for plate materials for LNG tanker ships, thick plate and foil stock
- 2. Fukaya Plant** Production of a wide variety of products in medium-size lots, such as general thick plate, printing plates and automotive materials
- 3. Nikko Plant** Production of high-value-added specialty products, such as clad materials for automotive heat exchanger and high-purity alloy material for memory disk
- 4. Oyama Plant** Production of high-quality, high-precision extrusions
- 5. Casting and Forging Plant** Has one of Asia's largest 15,000-ton forging press and produces large forged products and high-precision cast compressor wheels for automotive turbo-chargers

Global expansion utilizing accumulated know-how

Furukawa-Sky continues to achieve rapid growth and maintains a business presence in multiple areas worldwide mainly by meeting demand in the overseas transportation field.
