1. Qualitative Information on Results for the Third Quarter Ended December 31, 2012

(1) Consolidated Business Performance

Looking at economic conditions during the first nine months of the fiscal year ending March 31, 2013, risks related to public-sector financial issues in Europe remained, but the rate of economic deceleration in China eased and the U.S. economy trended toward a gradual improvement. Meanwhile, the Japanese economy, which was buoyed in the first half by domestic automobile sales driven by eco-car subsidies, declined from October as these subsidies ended. The electrical equipment and electronic components segments remained sluggish, and a difficult operating environment persisted as companies in related sectors curtailed or delayed capital investments.

In the rolled aluminum industry, of which the Group is a member, demand for transportation materials increased. Demand for foil base for capacitors was down year on year, however, owing to lackluster performance in digital home appliances, and demand for general equipment and instruments was down, as was demand for can stock. Consequently, overall demand for rolled aluminum was down slightly compared with the same period of the preceding fiscal year.

By volume, Group sales of thick sheet for LNG tanker construction were up sharply year on year, prompted by a surge in demand. Conversely, lower sales of such mainstay products as can stock and foil base caused overall sales to decline 2% year on year.

As a result, third quarter consolidated total net sales were ¥137,065 million (down ¥9,112 million year-on-year), operating income was ¥3,558 million (a decrease of ¥2,250 million compared to Q3 last year), ordinary income was ¥3,804 million (down ¥1,707 million year-on-year), and quarterly net income was ¥2,077 million (down ¥700 million compared to Q3 last year).

(2) Consolidated Financial Position

(Total assets)

Total assets as of December 31, 2012 were ¥209,951 million (a decrease of ¥3,047 million compared to the end of the previous fiscal year). Of this figure, current assets amounted to ¥96,984 million (down ¥5,687 million from their level at the end of the previous fiscal year.) Although cash and deposits increased ¥753 million and inventories increased ¥1,758 million, trade notes and accounts receivable declined ¥5,027 million, and short-term loans receivable decreased ¥3,201 million. In addition, total noncurrent assets amounted to ¥112,967 million, up ¥2,639 million from March 31, 2012.

(Liabilities)

Total liabilities as of December 31, 2012 were ¥136,701 million (a decrease of ¥5,118 million compared to the end of the previous fiscal year). This was mainly due to decreases in notes and accounts payable-trade of ¥2,601 million, accounts payable-other of ¥648 million, accrued expenses of ¥629 million and provision for retirement benefits of ¥1,000 million.

(Net assets)

Total net assets were ¥73,250 million as of December 31, 2012, up ¥2,071 million compared with March 31, 2012. While foreign currency translation adjustment and deferred gains or losses on hedges increased ¥627 million and ¥475 million, respectively, the Group posted ¥2,077 million in net income during the third quarter. Furthermore, retained earnings increased ¥203 million due to such factors as changes in the scope of consolidation. These factors, after taking into account ¥1,363 million in dividend payments, resulted in a ¥918 million increase in retained earnings.

(3) Forecast for Consolidated Business Performance

There are no revisions to the consolidated results forecast announced on November 1, 2012.

(Note) Forecasts of consolidated results are forward-looking statements, which are rationally determined based on information available to the Company at the time these forecasts were announced. Actual performance may differ substantially from these projections due to fluctuations in the economy or a variety of other known and unknown factors.

2. Matters Relating to Summary Information (Notes)

(1) Changes in significant subsidiaries during the period

There was no change in the scope of consolidation of specific subsidiaries.

(2) Application of special accounting treatment in the preparation of quarterly consolidated financial statements

Not applicable

(3) Changes in accounting policies, changes in estimates, or restatements

Due to changes in the tax code, from the quarter under review onward in the case of some domestic subsidiaries the depreciation method applied to property, plants and equipment acquired on or after April 1, 2012 has been changed in line with the revised corporate tax code. The effect on profits is slight.
